

Dockets Management Branch (HFA-305)
Docket No. 98N-1265 MAR 25 P1:34
Food and Drug Administration
5600 Fishers Lane
Rockville, MD. 20857

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS:

I regret this information wasn't made more public and known to the ordinary person! For 25 years I lost work days due to serious migraines and all the side effects. Only in the past 2 years have I received relief from this debilitating condition and have been able to have a somewhat normal life. The "pain killers" that were given to me over the years did nothing & only recently was one of them able to alleviate the pain. However - I was lucky, blessed, to be recommended to a Dr. who discovered the causes of my migraines and prescribed the compounded medication that now allows me some normalcy in life. I am appalled that my right to a healthy life would be deprived because corporate pharmacies would not be able to produce the medicine I would need without charging horrendous prices or another "reason" they may come up with. They haven't done anything for many of us for years. It's time to allow a smaller company who cares to help those of us with particular needs produce and supply the medicines we need, ⁵⁶⁷
